TREATMENT LIST

Injectables

Injectable Consultation

A 30-minute appointment with Dr Ellie to discuss your areas of concern and receive a full consultation, providing a bespoke treatment plan.

Facial Dermal Filler

Dermal fillers are used to restore volume loss and enhance facial contours.

Lip Augmentation

Carefully placed filler used to define, volumise and shape lips with a natural, subtle finish.

Tear Trough Filler

Hyaluronic acid-based filler is used to improve under-eye hollowness + improve the appearance of dark circles.

Non-Surgical Rhinoplasty

‘A liquid nose job’ carefully placed filler used to straighten, smooth and improve symmetry.

Toxin

Anti-wrinkle injections

Botulinum Toxin is used to temporarily lessen or freeze muscle movement to soften contraction lines and wrinkles. The number of areas to be treated will be discussed during consultation.

Lip Flip

A small amount of toxin is used above the upper lip to create a fuller and symmetrical lip when smiling.

Gummy Smile

A small amount of toxin is placed to reduce the muscle activity around the lips so less to no gum is on show when you smile.

Hyperhidrosis (excessive sweating)

Toxin is used to temporarily block the nerves that signal the sweat glands to activate. Useful for underarms, palms of hands, feet, upper lip.

Masseter (Jawline slimming)

Toxin placed in the Masseter muscle is used to lessen teeth grinding or to slim the appearance of the jawline.

Peels

OBAGI Blue Radiance Peel

Salicylic acid-based peel to manage breakouts, excess oil, pore size and general skin health.

Medical-Grade Facials

ZO + SkinCeuticals are the gold standard skincare ranges of the aesthetic industry. A personalised and bespoke facial is created to rejuvenate, relax and improve your overall skin health. Skin-specific peel included.

Skin Boosters

Redensity 1 (Teoxane)

A powerful skin glow enhancer and redensifier that addresses various skin concerns, such as dryness, skin laxity, sagging, sun damage, and general ageing.

Polynucleotides

DNA fragments that work at a cellular level to stimulate collagen + elastin, leading to firmer and healthier skin. Popular around the eyes, face and neck.

Profhilo

A revolutionary 'beneath the skin' hyaluronic acid moisturising treatment to hydrate from within. (2 sessions required 4 weeks apart).

Platelet- Rich-Plasma (PRP)

Uses plasma extracted from the patient’s blood. Plasma is then micro-needled into the skin. Plasma releases growth factors that stimulate cell repair, cell turnover, collagen and elastin production, and increases vascularity, improving thinning hair or for skin rejuvenation purposes.

Skin Treatments

Hydrafacial

HydraFacial® is a medical-grade, bespoke facial that simultaneously cleanses, exfoliates, extracts, hydrates and protects the skin using the latest vortex fusion technology. Designed to give you ‘the best skin of your life’.

Hydrafacial Signature (30-minute glow treatment) includes a deep cleanse, extraction and hydration steps.

Hydrafacial Platinum (deluxe 1-hour treatment) Including all the key Hydrafacial steps as well as lymphatic drainage, steam, personalised mask, massage, skin-tailored booster and LED light therapy.

Hydra-Tite (1 hour 15 minutes): Platinum Hydrafacial combined with skin-tightening radio frequency energy.

HydraNeedling

Signature and Microneedling (75 Mins)
Combines microneedling with hydrating serums to boost collagen, smooth texture and enhance skin quality and radiance.

HydraBright

Signature and IPL for Pigmentation or Redness (60 Mins)
Combines the signature hydrafacial with IPL (intense pulse light) targeting redness, pigmentation and uneven skin tone. Helping to promote a radiant, even complexion.

HydraClear

Signature and IPL for ACNE (60 Mins)
Combines the signature HydraFacial with IPL (intense pulse light) and uses blue light to target and destroy P. acnes bacteria and reduce inflammation giving you a clearer complexion.

Skin Treatments Continued

HydraWow

Signature and WOW Infusion Facial (75 Mins)
Combines the signature HydraFacial with microchanneling to infuse tailored serums, boosting cleansing, exfoliation and hydration for smoother, tighter and brighter skin.

HydraGlow

Platinum and IPL and Microneedling (90 Mins)
Rejuvenating skin treatment combining multiple modalities, the Platinum hydrafacial, Controlled light therapy and Microneedling delivers cleansing, hydration, collagen boost and even skin tone in one treatment.

Wow Fusion Facial (60 Mins)

This treatment uses microchanneling to infuse tailored serums, leaving skin deeply hydrated, firm, smooth and glowing. Suitable for dehydration, dullness, fineline and firmness loss, early signs of ageing, texture irregularities, enlarged pores, rosacea, pigmentation

IPL (Intense Pulsed Light)

For Acne, pigmentation, and rosacea

Laser therapy used to combat a range of photodamage and visible skin damage including thread veins, hyperpigmentation, acne and general redness. A course of 3-6+ treatments is advised.

Resurfx

A non-ablative laser treatment creating controlled heat damage to the skin to rejuvenate and improve overall skin tone, texture and firmness.

Photofabulous (IPL + Resurfx combined)

A powerful skin rejuvenation treatment to create ‘glass-like skin’ that improves skin tone and texture, for flawless skin.

Morpheus 8

A powerful combination of radio frequency for skin tightening and micro needling for improving collagen, skin texture, fine lines and wrinkles and overall sculpting.

Morpheus Body- contouring treatment to improve skin laxity, stretch marks, and reduce fat pockets.

Microneedling Skin Pen

Microneedling encourages collagen production using tiny, sterile needles. This has huge anti-ageing benefits and improves skin texture and tone.

P-TIOX facials

The Glass Skin P-TIOX facial is a 45-minute, results-driven facial designed to smooth, hydrate and restore glow using SkinCeuticals P-TIOX products.

The P-TIOX Lift Facial is a 60-Minute advance anti-aging facial combining lymphatic drainage, RF (Skin Tightening), LED Light therapy, P-TIOX protocol.

Skin Consultation

A 30-minute appointment to discuss your skin concerns. A skin scanner is used to create a bespoke, targeted skin and treatment plan for you.
